# Designing Your Digital Branch

---

Your website is usually the first place a prospective member goes to learn about your services. It's also where existing members go to use your digital tools. **If your website is difficult to use, then your user conversions will go down.**

A properly designed website will allow users to have an experience that is as good or better than when they visit your branch. Here are some of the attributes of a great digital branch:

- » **Content is easy to find, skim and understand**
- » **Forms, applications and calculators are easy to use on any device and store contact details**
- » **Has ability to generate new leads**
  - Guide prospects with personalized content
  - Provide automated follow-up with relevant information
- » **Is ADA accessible and allows users to report any accessibility issues**

User experience is often the most overlooked aspect of a new website build. Every little detail must be easy to find, understand and use from a visitor's perspective.

LKCS can help you redesign your website and meet the user experience aspect of your design. Our award-winning web team will create a custom online presence that meets your specific goals and properly supports your products and services.

# Improve Your Marketing Budget

---

How many items do you send out each month that have no marketing content? For little additional cost, you could turn some of these items into marketing vehicles. These can be as simple as inserts or onserts for printed items. For your digital contacts, you could add email marketing messages and banner ads.

## Why should you market to your members?

- » **Members are 6 times more likely than prospects to sign up for your services**
- » **It costs 6 to 7 times as much to acquire a new member versus retaining a current member**
- » **A 2% increase in member retention has the same effect as decreasing costs by 10%**

---

DO YOU SEE NOW WHY THIS IS MORE COST EFFECTIVE?

---

## Other ways to improve your marketing responses:

- » On-Board new members with targeted matrix campaigns
- » Send personalized and targeted marketing offers to your members
- » Use your statements as a One-to-One marketing tool
- » Utilize e-mail as an effective marketing channel
- » Leverage social media marketing to generate new business
- » Utilize marketing automation to automatically keep the "conversation" going

## Tie your marketing methods together with Campaign Marketing!

Campaign marketing allows you to communicate your same marketing message across many channels. We will work with you to develop, create and coordinate your custom cross-media campaigns. By contacting your members with the same ad in multiple locations, your ad will stay with them.
