Design Awards

With LKCS, you won't get one-size fits all designs. We will work with you to create a design that fits your branding and personality. Big or small, LKCS will work within your budget to get you the most for your money.

We challenge our designers to always think creatively with their designs. **In 2025 the results showed. We received twelve design awards compared to eight in 2024!**

You need to stand out from the competition. Since your website is usually the first-place prospects look, a well-designed website is key. LKCS will provide you with the design and tools you need to convert more prospects.

Please review our customer testimonials to see what they have to say about their award-winning project experience.

The image shows the homepage of the Maine Family Federal Credit Union website. The header features the logo and name "Maine Family Federal Credit Union" with a "LOG IN" button. The main banner has a purple background with the text "Insurance Made Simple" and "Track, Manage, And Save On Home And Auto Insurance With Woop Insurance Dashboard!". Below the banner are buttons for "TRY IT TODAY!" and "TAKE ME THERE!". The main content area features four service icons: "AUTO LOANS" (car icon), "YOUTH ACCOUNTS" (piggy bank icon), "HOME LOANS" (house icon), and "CREDIT CARDS" (credit card icon). Each icon has a brief description below it.

In Customer Satisfaction

I am a widow, I am shopping with local companies, on my budgeted and I decided to look for a bank with the primary location on the coast road. We currently in very trying, but I found who had used Mike Chiesa at BankORION for her mother's legal investment. We met with Mike and I began the pre-approved process just like the perfect loan declined into our loan, and we had to move fast to get a like-furnished something.

AI and SEO: What's Changing and How LKCS Is Already Ahead

One of the biggest shifts happening in digital marketing: the intersection of AI and SEO. While there's plenty of hype surrounding the impact of artificial intelligence on search, the good news is simple — LKCS has already been preparing for this moment.

What's Happening in Search

More users are turning to tools like ChatGPT to ask questions and get fast, conversational answers. At the same time, Google has rolled out its own AI-powered search results, giving users direct responses on the results page without requiring a click-through.

This shift means:

- » AI is changing how users consume information.
- » **Users are visiting websites less frequently because answers appear instantly.**
- » People are now relying more on AI engines as a resource for information.

Yet despite these changes, one thing hasn't shifted: how AI consumes information.

SEO Principles Still Matter

AI relies on many of the same core principles that have guided traditional SEO and strong website performance for years. Because LKCS has consistently built sites with structured content, clean information architecture, and met technical best practices, **our websites are well-positioned for both search engines and AI engines.**

High-quality, relevant content is key to ranking well and engaging your audience.

How Your Website Can Harnesses Changing Search Dynamics

Your site must include the following features if you want to meet these changing search dynamics:

VIDEO CONTENT

AI tends to surface quick, clear video explanations. LKCS can create short-form videos that help credit unions and banks communicate their products and services more effectively.

SCHEMA STRUCTURED DATA

AI engines place even more weight on structured data than traditional search engines. **Our schema tool, designed specifically for bank and credit union data**, helps clients enhance visibility across AI-driven platforms.

LOCAL LISTINGS MANAGEMENT

Just like SEO, AI checks for accurate and consistent local listings to build trust in the information your website puts out. LKCS' Local Sync Manager makes maintaining and updating phone numbers, hours of operation, holiday hours and branch information across 50+ websites fast and seamless.

The Internet and how it is used are constantly changing. But there is one thing that doesn't change, LKCS will be here to guide you. Ask us how to incorporate these features into your current or new website.

Win Back the Loans You're Missing!

Are you losing loan opportunities to competitors? Too often, account holders choose convenience over loyalty. But what if you could **target those missed loans and bring them back to YOU?**

Introducing Credit Prospecting from LKCS

With **soft credit pulls**, we help you identify consumers who meet your credit criteria, without impacting their score. You set the parameters, and we'll do the rest.

Perfect for:

- » Home Equity & HELOC Loans
- » Home Improvement Loans
- » Vehicle Loans
- » Mortgage Loans
- » Balance Transfers
- » Personal Loans

We'll find **creditworthy prospects most likely to respond** — and then help you **seal the deal** with personalized mailers that show real monthly savings. Add our **Campaign Suite** to reach them on Facebook and Google for maximum impact.

Don't Miss Out — Learn How!
