Pre-Screen Credit Prospecting

MAJOR LEAGUE LOAN RESULTS

Today, consumers are more willing to switch to save on their monthly bills. Whether it's an Auto, HELOC, Mortgage, or Credit Card, they will be looking for better rates. Use Pre-Screen Prospecting to find these individuals.

Credit-Based Marketing leverages data from the three major credit bureaus to identify qualified new members or existing members that will be interested in what you have to offer. You can realize up to a 70% increase in qualified leads by employing data from all three bureaus. Find the right individuals and their specific needs so that you can send the right offer.

You have the ability to run multiple offers at the same time to promote any of your loan products right off the bat. You determine what requirements (FICO scores, equity, LTV, etc.) the prospects need to meet the lending goals of your institution. Use Pre-Screen Prospecting to send out pre-approval offers to prospective borrowers. **This works great for refinance offers and new loan acquisitions.**

Pre-Screen Prospecting is much less expensive than you would think. With LKCS' help, it is also much easier to use. Hit a home run by scheduling a personal webinar. Or, contact us online at www.lk-cs.com or call **866.552.7866** to speak with a sales representative today.

Don't Get Called Out!

WEB CONTENT ACCESSIBILITY GUIDELINES

Over the past six months, the topic of ADA compliance and website accessibility has dominated website-related conversations we've had with clients nationwide.

Banks and credit unions are under threat of potential litigation because their websites aren't fully accessible by the disabled. Most logical people realize that this wasn't intentional – banks and credit unions obviously want everyone to be able to use their websites.

The Web Content Accessibility Guidelines are comprised of a myriad of small recommendations. Each one makes your site work better for different assistive technologies used by the disabled. But you'll likely find tens of thousands, or hundreds of thousands, of items on your site that need to be reviewed individually to achieve your goal of meeting WCAG level AA accessibility. That can be a daunting task – especially since web accessibility isn't even close to your primary job responsibility.

And, to make matters worse, even websites that launched a year ago may be considered a foul ball as they likely were not created to meet all of the web accessibility guidelines.

Step up to the plate by attending our upcoming webinar. Or, contact us online at www.lk-cs.com or call **866.552.7866** to speak with a sales representative today.
